ABSTRACT

The third annual statistical abstract for the University of Alaska System is presented. Intended to be factual rather than interpretive for use by the Board of Regents, institutional administrators, and public officials, it documents the first year effects of restructuring the University of Alaska System (due to the extreme and rapid state funding reductions). Seven sections focus on the following: (1) enrollments (i.e., fall 1987 credit headcount by campus/level/residency/sex and fiscal year (FY) 1987 correspondence study activity); (2) programs, awards, and grades (i.e., FY 1983-88 degrees/certificates by institution and fall 1987 grades by department/subject/course level); (3) faculty and staff (i.e., fall 1987 full time faculty by department/rank/sex/age/highest degree and fall 1987 student faculty ratios by department/subject); (4) facilities, property, and land (i.e., fall 1987 building inventory and FY 1987 library statistics); (5) fiscal analysis (i.e., FY 1983-88 restricted current funds revenue and FY 1984-88 state financial aid to students by campus/type); (6) comparative statistics (i.e., FY 1988 state public higher education support factors and FY 1976-88 higher education prices and price indexes); and (7) special projects summary (i.e., enrollment projections and environmental scan for 1988-98 and FY89 market-based faculty salary model). PREFACE

Introduction

This third annual STATISTICAL ABSTRACT for the University of Alaska System is intended to be factual rather than interpretive in nature for use by the Board of Regents, institutional administrators, and public officials in the development of University plans and programs. FY87 was the last year the University was organized under its old structure before a necessary reorganization was implemented due to extreme and rapid state funding reductions. This abstract therefore serves as a benchmark in that it documents the first year effects of restructuring the UA System. Additionally, FY87 was the last year UA utilized batch payroll and student records data systems. A conversion to online computer systems enabled a degree of student and staff data correction opportunities. These corrections, to historical as well as FY87 data, are reflected in this edition. FY88 enrollment statistics are improved due to the use of the new SIS. The diagram below defines the major instructional unit abbreviations used. In addition, the following abbreviations are used throughout the abstract: SPS - Statewide Programs and Services; CES - Cooperative Extention Service; FITC - Fisheries Industrial Technology Center; and MAU - Major Administrative Units, comprised of UAA, UAF, UAS, and SPS.

Future Inclusions

Assembly of the material presented involved many judgements regarding inclusion, exclusion and form of presentation. Suggestions concerning additions, modifications or corrections to this book are welcomed.

Acknowledgements

The production of the STATISTICAL ABSTRACT would not have been possible without the efforts made by staff at the following University and State offices: Admissions and Records; Institutional Research; Academic Affairs; UACN; Facilities Planning; Accounting; Budget; Finance; UA Libraries; ACPE; DOE; and DOL. Special recognition is given to the extra efforts made by Ann Secrest, Ahnya Redman, Doug Toelle, Jeannie Phillips, Floyd Burnett, Jim Lynch, Fred King, Marty Epstein, John Dickinson, Larry Kingry, Ann Tremarello, Bruce Gifford, Nancy Price, Helen Burrell, Cathi Carr-Lundfelt, Carol Griffin, Jeanne Freeman, John Wasileski, Barbara Peters, Julie Mapes, Les Riedlinger, Dennis Edwards, Russ Newell, Colleen Abrams, Janet Johnson, Estella Cannon, John Olson, Eileen Franson, and Michelle Wood.

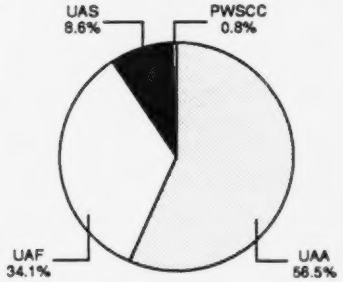
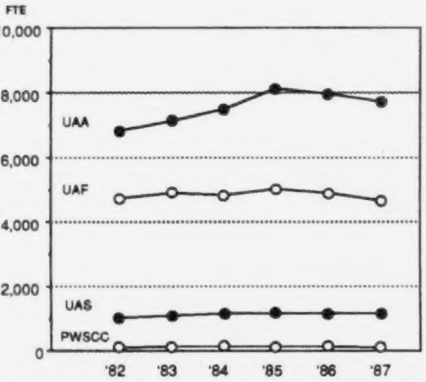
Fall 1987 FTE Distribution by Institution



Fall 1982-87 FTE Trends by Institution



Fall 1987 FTE Distribution by Course Level

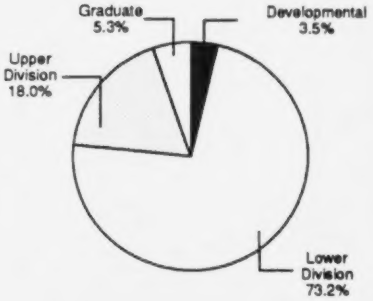


Table Definitions

DEVELOPMENTAL CREDITS	Course-level student credit hours (SCH) earned in developmental courses, signified by the course number range from 050 through 099. Also called Remedial.
FTEs	Full-time Equivalent Students. For graduate level courses, the number of course-level student credit hours divided by 12. For undergraduate and developmental level courses, the number of course-level student credit hours divided by 15.
GRADUATE CREDITS	Course-level student credit hours earned in graduate courses, signified by the course number range from 500 through 699.
LOWER DIVISION CREDITS	Course-level student credit hours in lower division undergraduate courses, signified by the course number range from 100 through 299. Also called Freshman- Sophomore courses.
UNDERGRADUATE CREDITS	Course-level student credit hours earned in all undegraduate courses.
UPPER DIVISION CREDITS	Course-level student credit hours in upper division undergraduate courses, signified by the course number range from 300 through 499. Also called Junior- Senior courses.

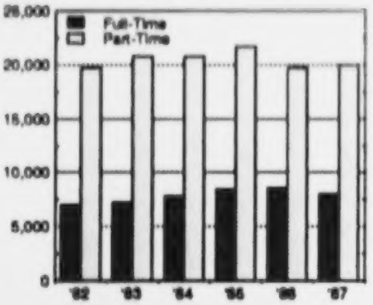
Fall 1982-87 Undegraduate Headcount Trend



Fall 1982-87 Graduate Headcount Trend

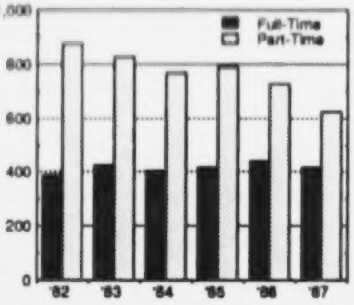


Table Definitions

FIRST-TIME FRESHMEN	Students enrolled in an undergraduate degree or certificate program who are attending a higher education institution for the first time.
FIRST-TIME GRADUATES	Students enrolled in a graduate degree or certificate program for the first time.
FULL-TIME STUDENTS	Undergraduates or special student undergraduates taking a course load of 15 or more student credit hours or graduate students taking a course load of 12 or more student credit hours in a semester.
GRADUATE STUDENTS	Students enrolled in graduate degree or certificate programs.
PART-TIME STUDENTS	Undergraduates or special students undergraduate taking less than a course load of 15 student credit hours or graduate students taking less than a course load of 12 student credit hours in a semester.
NON-DEGREE SEEKING STUDENTS	Students not enrolled in any degree or certificate program or who are not degree-seeking students with an undeclared major. Also referred to as "Special" students.
UNDERGRADUATES	Students enrolled in undergraduate degree or certificate programs.

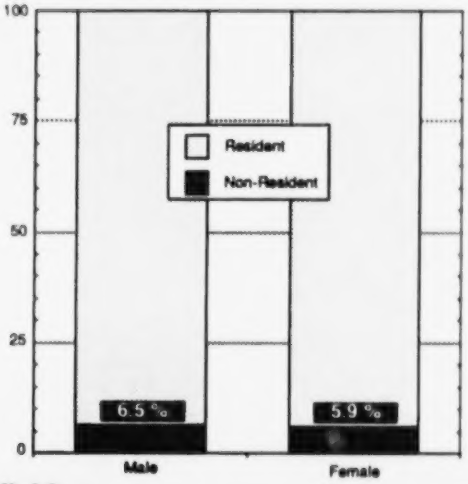
Fall 1987 Headcount by Residency/Sex



Fall 1987 Headcount by Residency/Student Level

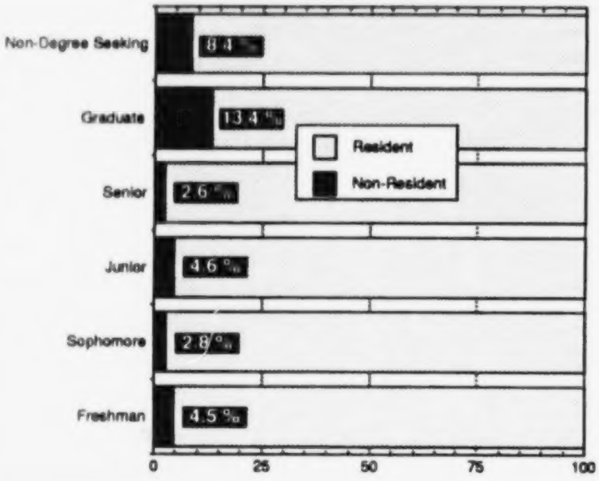


Table Definitions

FIRST-TIME FRESHMEN	Students enrolled in an undergraduate degree or certificate program who are attending a higher education institution for the first time.
FIRST-TIME GRADUATES	Students enrolled in a graduate degree or certificate program for the first time.
GRADUATE STUDENTS	Students enrolled in graduate degree or certificate programs.
NON-DEGREE SEEKING STUDENTS	Students not enrolled in any degree or certificate program or who are not degree-seeking students with an undeclared major. Also referred to as "Special" students.
RESIDENT STUDENTS	Students defined as residents for the purposes of tuition charges.
UNDERGRADUATES	Students enrolled in undergraduate degree or certificate programs.

NOTE:
A checked program indicates the program has been or is scheduled to be deleted. A dash in the award field indicates the program was not offered that year.
An 'na' indicates statistical data concerning this program were not applicable.
Teacher Credential students are reported with degree seeking students and are excluded from the non-degree seeking totals.
Totals are unduplicated within the Anchorage campus as well as within each branch campus. The institutional total is a duplicated total of the main campus and its branches.
Recent structural changes are reflected in this table only. Vocational Education (MS) has been moved from UAS to UAA.

NOTE:
A checked program indicates the program has been or is scheduled to be deleted. A dash in the award field indicates the program was not offered that year.
An 'na' indicates statistical data concerning this program were not applicable.
Totals are unduplicated within the Fairbanks campus as well as within each branch campus. The institutional total is a duplicated total of the main campus and its branches.
Recent structural changes are reflected in this table only. Fisheries (BS,MS) has been moved from UAS to UAF.

NOTE:
A checked program indicates the program has been or is scheduled to be deleted. A dash in the award field indicates the program was not offered that year.
An 'na' indicates statistical data concerning this program were not applicable.
Teacher Credential students are reported with degree seeking students and are excluded from the non-degree seeking totals.
Recent structural changes are reflected in this table only. Vocational Education (MS) has been moved from UAS to UAA
and Fisheries (BS, MS) has been moved from UAS to UAF.

Table Definitions

STUDENT STATE OF ORIGIN	For all Fall 1986 students enrolled in credit/developmental credit courses who are not exclusively auditing all their courses, this is the residency of the student at the time the student applied for admission or first enrolled at a UA institution.
UNREPRTD (UNREPORTED)	Data were not recorded by the campus and reported to Statewide. Applied to either the student's state/country of residence at the time of application to the institution or to their sex data fields.

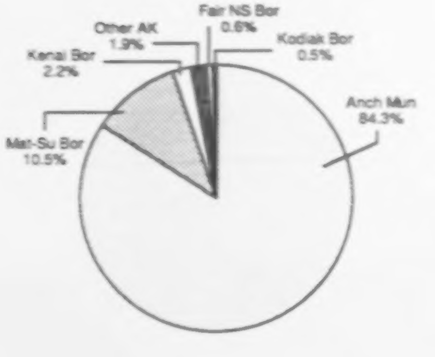
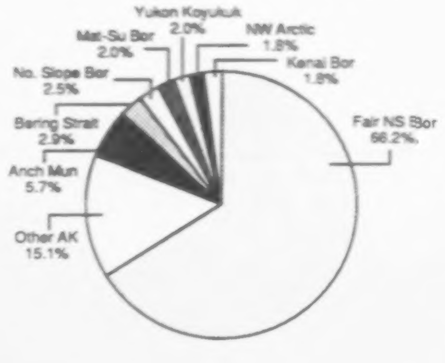
Distribution of Students of Known Alaskan Region of Origin at UAA



Distribution of Students of Known Alaskan Region of Origin at UAF



Distribution of Students of Known Alaskan Region of Origin at UAS

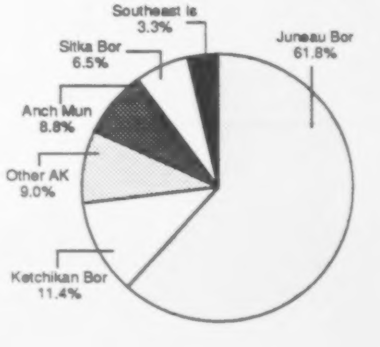


Table Definitions

REAA	REAA or Borough school districts are as defined by the State of Alaska Department of Transportation & Public Facilities in cooperation with the State of Alaska Department of Education, 1985. City School Districts and small REAAs are included within the larger REAA or Borough district in which they are located. The Aleutian Chain REAA includes King Cove, Sand Point and Unalaska. The Bering Strait REAA includes Nome; Chatham REAA includes Hoonah, Pelican and Yakutat; Chugach REAA includes Cordova and Valdez; Haines Borough includes Skagway; Lower Kuskokwim REAA includes the Yupiit REAA; Lower Yukon REAA includes Kashunamiut and Saint Mary's; Southeast Islands REAA includes Craig, Hydaburg, Kake, Klawock, Petersburg and Wrangell; Southwest REAA includes Dillingham; and the Yukon Koyukuk REAA includes Galena, Nenana and Tanana.
REGION OF ORIGIN	For all Fall 1986 students enrolled in credit/developmental credit courses who are not exclusively auditing all their courses, this is the Alaskan REAA/Borough region the student resided in at the time the student applied for admission or first enrolled at a UA institution.

Table Definitions

CERTIFICATE PROGRAM 1 YEAR <	A certificate less than one year in duration requiring less than 30 semester credit hours for completion.
> 1 YEAR	A certificate one year but less than two years in duration requiring 30 or more semester credit hours for completion.
PROGRAM	A field of study defined by CIP (Classification of Instructional Programs) code, major, and degree type.

NOTE: (1) 1986 data were derived from the old payroll system; 1987 from HRIS. The conversion of these data to the new UA structure is only approximate.
(2) Decreases in administrative staff reflect restructuring and the elimination of chancellor, vice chancellor, and community college president positions.
(3) In 1987, UAF reclassified all faculty with split research/instruction appointments as instructional faculty.
(4) Growth in staff, especially classified, reflects restructuring where support functions moved from administrative to support staff with expanded duties.
(5) Includes 13 temporaries at GI and 7 at PWSCC hired on grants, 4 temporary staff for new UAS day care center, and 4 temporary maint staff at Sitka.
(6) Research faculty are at CCRJC (6), ISER (6), and AEIDC (1).
Source: October 1987 HRIS Extract

Table Definitions

FT FACULTY AND STAFF	All employees whose coding on the University's HRIS system indicates they are full-time employees regardless of funding source.

Table Definitions

ADMINISTRATIVE STAFF	Full-time employees whose assignments require primary (and major) responsibility for management of the institution, or a customarily recognized department or subdivision thereof. Included are the President, Chancellors, Vice Presidents, Vice Chancellors, Deans and other officers of academic departments whose principal activity is administrative in nature. Supervisory personnel of the Techincal, Clerical, Skilled Craft, and Maintenance forces are reported within those specific categories.
CLERICAL STAFF	Full-time employees whose assignments typically are associated with clerical activities or are specifically of a secretarial nature.
INSTRUCTIONAL FACULTY	Full-time employees whose primary assignments customarily are made for the purpose of conducting instruction as a principal activity and may also include research and public service as additional activities.
PROFESSIONAL STAFF	Full-time employees whose assignments require either college graduation or experience of such kind and amount as to provide a comparable background, and who are not included in the Administrative, Faculty, Clerical, Technical, Skilled Crafts, or Maintenance categories.
MAINTENANCE/SERVICE STAFF	Full-time employees whose duties result in or contribute to the comfort, convenience and hygiene of personnel and the student body or which contribute to the upkeep and care of buildings, facilities or grounds of the institutional property.
RESEARCH FACULTY	Full-time employees whose primary assignments customarily are made for the purpose of conducting research as a principal activity. Public service and instruction may be performed as additional activities.
SALARY	SALARY is extrapolated from a single pay period in early October, as required by federal reporting rules. Pay rates of all assignments, excluding overloads and per-credit-hour fees, are weighted by the percent of employment in the assignment, then summed to obtain a single pay rate per employee. This rate is extended over 19.5 pay periods for semester and 9-month employees, 26.1 pay periods for 12-month employees, REGARDLESS OF HIRE DATES, to obtain comparable, normalized salaries which should approximate the employee's contract salary. For employees whose assignments sum to over 100%, rates are adjusted to a 100% rate.
SKILLED CRAFTS STAFF	Full-time employees whose assignments typically require special manual skills and a thorough and comprehensive knowledge of the processes involved in the work, acquired through on-the-job training and experience or through apprenticeship or other formal training programs.
TECHNICAL STAFF	Full-time employees whose assignments require specialized knowledge or skills which may be acquired through experience or academic work such as is offered in many 2-year technical institutes, junior colleges or through equivalent on-the-job training.

Distribution by Rank Within Institution

Table Definitions

INSTRUCTIONAL FACULTY	Full-time employees whose primary assignment job title is instructional faculty (as distinct from research faculty). Instructional faculty normally perform research and public service activities as well as instruction.
NON-TENURED INSTRUCTIONAL FACULTY	Full- time instructional faculty (regardless of funding source) whose coding on HRIS indicates they do not have tenure.
NON-TENURE TRACK	Faculty not elligible for tenure; includes some instructors and visiting appointments.
RESEARCH FACULTY	Full-time employees whose primary assignment job title is research faculty. Public service and instruction may be performed as additional activities.

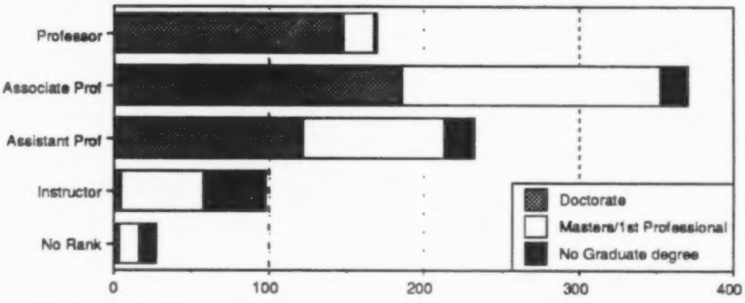
Fall 1987 Full-Time Faculty Distribution by Rank/Highest Degree Earned



Fall 1987 Full-Time Faculty Distribution by Rank/Mean Salary/Mean Age

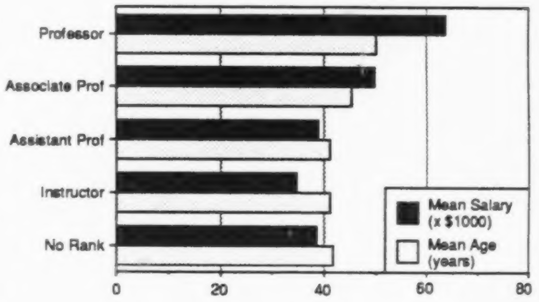


Table Definitions

OTHER FACULTY	Faculty for whom no academic department is assigned by the campus.
REGION	Oklahoma State University Faculty Salary Survey regions: I - West, II - Southcentral, III - East & Midwest, IV - Southeast. Region V is Alaska. Counts for regions where degrees were earned exclude "No Degree" and degrees from outside the USA.
RES/INSTRUCT	Research Faculty / Instructional Faculty.
TIME IN RANK	The number of years a faculty member has been in their current rank (i.e., as an Assistant Professor) at the University of Alaska.

Fall 1987 Student Faculty Ratio by Level/Institution

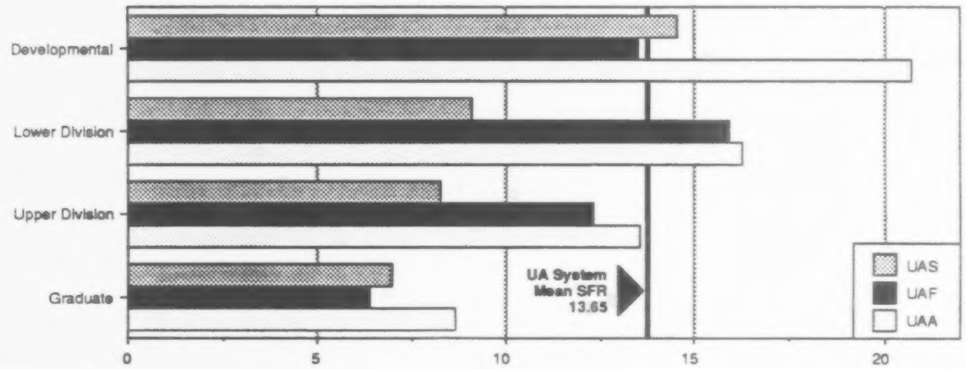

Table Definitions

STUDENT CREDIT HOUR	Student Credit Hour. A unit of measure that represents one student engaged in an activity for which one hour of credit for a degree or other certificate is granted upon successful completion.
STUDENT FTE	Full-time equivalent Student. A hypothetical student who enrolls in 15 undergraduate or 12 graduate credit hours per semester. The student FTEs in this table are course-based, not student-level based indicators of productivity.
FACULTY FTE	Faculty Full-Time Equivalent. For non-thesis/research/practicum/individual study/intern courses, equals the number of fall semester undergraduate course credit hours taught divided by 12 and the number of graduate course credit hours divided by 9. For thesis/research/practicum/individual study/intern undergraduate courses, equals student credit hours divided by 5 x 12; for similar type graduate courses, equals student credit hours divided by 3 x 9. No faculty was equated to more that 1.00 faculty FTE.
SFR	Student Faculty Ratio. The student FTEs divided by the faculty FTEs.
SFR DEPT, SCHOOL, OR INSTITUTION INDEX	A ratio of the specific SFR relative to the SFR for the appropriate department, school, or institution. For example: the UAA Lower Division Chemistry SFR divided by the UAA College of Arts and Sciences Lower Division SFR equals its SFR School Index.
DEVELOPMENTAL, LOWER AND UPPER DIVISION, GRADUATE	Course-level categories as defined by course number - see TABLE 1.1 for specific definitions.

Source: Statewide Facilities Planning & Construction Inventory List for FY88.

Table Definitions

CURRENT PLANT INVESTMENT VALUE	The estimated funds required to recreate an entire facility in its current configuration in current dollars. These values include not only the costs of the structure itself, but the costs of design, site preparation, foundations, access roads, utility lines, parking lots and other site improvements.
GSF	Gross Square Feet.
INSITE	Institutional Space Inventory Technique. Software package used to manage the UA facilities data base.
YEAR ACQUIRED	The year the University first physically occupied a newly constructed facility or after it was otherwise acquired.

Fall 1987 Residential Space by Institution

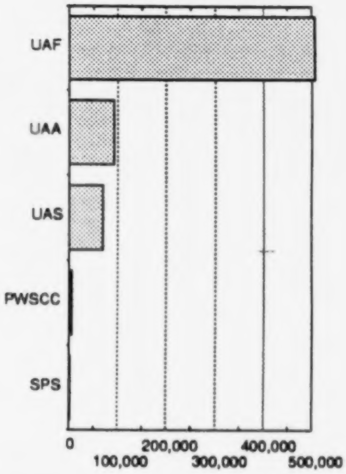

Table Definitions

INSITE	Institutional Space Inventory Techniques. Software package used to manage the UA facilities data base.
CLASSROOMS	Includes class service rooms and lecture halls.
INSTRUCTION LABS	Includes art studios, darkrooms, drafting rooms, music practice, and teaching labs.
RESEARCH LABS	Includes lab-offices and lab-service rooms.
OFFICES	Includes conferences rooms, private circulation areas, and vaults.
STUDY	Includes library processing rooms, stacks, and stack/reading rooms.
SPECIAL USE	Includes audio/visual facilities, animal quarters, locker and shower rooms, athletic facilities, greenhouses, non-medical clinics, and other special use rooms.
GENERAL USE	Includes assembly halls, coat rooms, dining halls, exhibit facilities, non-athletic locker rooms, kitchen facilities, merchandising rooms, multi-purpose rooms, music listening rooms, and recreational facilities.
SUPPORT	Includes central laundries, data processing facilities, mail rooms, maintenance shops, print shops, receiving rooms, and storage facilities.
HEALTH CARE	Includes health care service rooms, nurses stations, patient service rooms, public waiting rooms, supplies, surgery, and treatment rooms.
RESIDENTIAL	Includes dormitories, apartments, and single-family residences.
UNCLASSIFIED	Areas undergoing conversion at the time of inventory.
INSTRN/RSRCH LABS	Instruction Laboratories and Research Laboratories
NON-ASSIGNABLE	Circulation, mechanical, and custodial areas.
NUSF	Net Usable Square Feet.

Table Definitions

CLASSROOMS	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.
LABS	Regularly scheduled instructional space containing specialized equipment that limits the room's use. Includes art studios, darkrooms, individual study labs, shops, and music practice rooms.
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.

NOTE: Occupancy rates greater than 1.000 mean that extra chairs have been put in the room to fit in a few extra people. This happens frequently with labs until demand grows to expand or build a new lab. Occasionally, this happens with classrooms. When the number of student stations in a room was not reported, it was estimated by dividing the area by 15 for classrooms or by 30 for labs. The optimum rate for classrooms is 0.60 and for labs is 0.80.
Source: Facilities Planning & Construction Fall 1987 Reports OFP000R3, OFP000R4, OFP000R6, and OFP000R7.

Table Definitions

AVERAGE HOURS USED/WEEK	Total Room Contact Hours/Number of Rooms.
AVERAGE ROOM OCCUPANCY	Total Student Contact Hours/Total Room Contact Hours.
CLASSROOM	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.
DAY/NIGHT STUDENT CONTACT HOURS	Student contact hours which fall between 7:30 a.m. and 5:00 p.m. are Day Hours and those which occur after 5:00 p.m. are Night Hours. Both are weekly totals.
LABS/SHOPS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.
STATION OCCUPANCY RATE	Total Student Contact Hours/[(Number of Student Stations)(Avg Hours Used/Wk)]
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.
TOTAL ROOM CONTACT HOURS	The total number of hours per week a room is regularly scheduled for use.
TOTAL STUDENT CONTACT HOURS	The total number of student instruction hours per week in regularly scheduled rooms.

Note: Based on a six-day week, fifteen-hour day, for credit course activity (including auditors) only in UA inventoried space. Utilization analysis is currently done only on traditionally scheduled classrooms and class labs at the above campuses. Open labs at UAS and Kodiak are not included. An 'na' means data were not provided by the campus to Statewide Administration in the fall of 1987.
Source: Statewide Office of Facilities Planning & Construction - Reports OFP000R3, OFP000R4, OFP000R6 and OFP000R7

Table Definitions

<table>
<tr><td>CLASSROOMS</td><td>Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.</td></tr>
<tr><td>DAYTIME/EVENING CLASS</td><td>Any class that begins after 7:30 a.m. and before 5:00 p.m. is a daytime class. Any class that begins at or after 5:00 p.m. is an evening class.</td></tr>
<tr><td>GUIDELINE</td><td>A University space utilization guideline adopted by the Board of Regents as a reference measure for optimum usage under optimum conditions:
<table>
<tr><th></th><th>In Classrooms</th><th>In Labs/Shops</th></tr>
<tr><td>Total Available Hours of Instruction/Day</td><td>45.0</td><td>45.0</td></tr>
<tr><td>Total Available Hours of Instruction/Evening</td><td>25.0</td><td>25.0</td></tr>
<tr><td>Optimum Weekly Scheduled Hours/Day</td><td>30.0</td><td>20.0</td></tr>
<tr><td>Optimum Weekly Scheduled Hours/Evening</td><td>16.7</td><td>11.1</td></tr>
<tr><td>Optimum Weekly Percent Station Utilization/Day & Evening</td><td>60%</td><td>80%</td></tr>
</table></td></tr>
<tr><td>INSTRUCTIONAL SPACE</td><td>Limited to regularly scheduled classrooms and labs/shops.</td></tr>
<tr><td>LABS/SHOPS</td><td>Regularly scheduled instructional space containing specialized equipment that limits the room's use.</td></tr>
<tr><td>STUDENT STATION</td><td>The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.</td></tr>
<tr><td>UTILIZATION</td><td>Utilization refers to measuring the actual usage (activity level) of an area (room or student station) compared to optimum usage of the area.</td></tr>
<tr><td>WEEKLY ROOM CONTACT HOURS</td><td>The total number of hours per week a room is regularly scheduled for use.</td></tr>

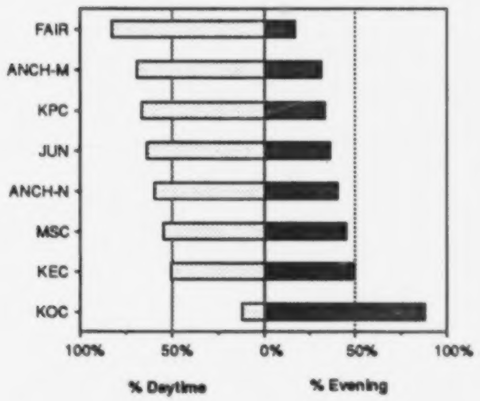
Distribution of Weekly Room Contact Hours for Classrooms



Distribution of Weekly Room Contact Hours for Labs/Shops

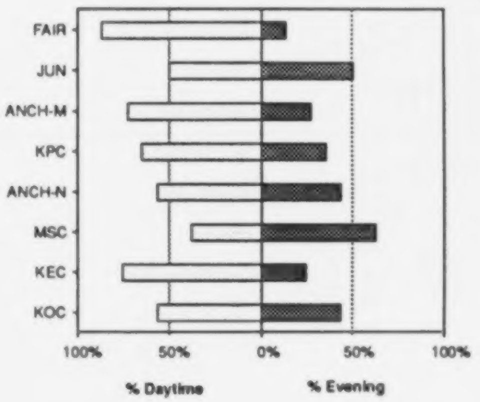


Table Definitions

CLASSROOMS	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.
DAYTIME/EVENING CLASS	Any class that begins after 7:30 a.m. and before 5:00 p.m. is a daytime class. Any class that begins at or after 5:00 p.m. is an evening class.
LABS/SHOPS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.
USAGE FACTOR	The product of the Average Weekly Room Hours times the Percent Student Station Utilization adjusted so that a value of 1.00 represents the University's guideline usage.
UTILIZATION	Utilization refers to measuring the actual usage (activity level) of an area (room or student station) compared to optimum usage of the area.

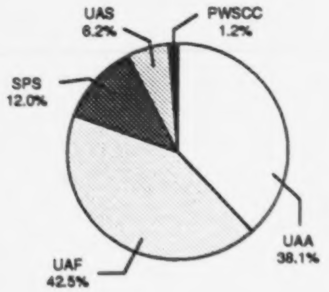
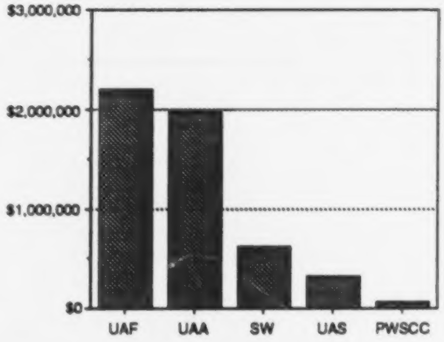
FY88 Equipment Expenditures by Institution



FY88 Equipment Expenditures by Institution



FY88 Equipment Expenditures by Category

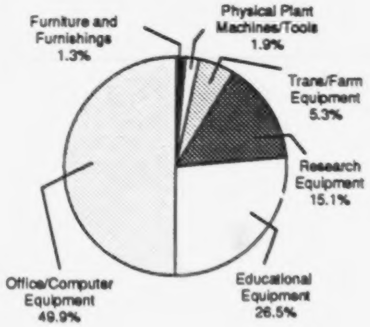


Table Definitions

FURNITURE AND FURNISHINGS	Expenditures for furniture, fixtures, appliances, and artworks that are not permanently attached. Purchased for buildings, offices, classrooms, and university owned residences.
EDUCATIONAL EQUIPMENT	Expenditures for apparatus, gear, and machinery for use in the classroom or instructional laboratory environment. (Includes microcomputers)
RESEARCH EQUIPMENT	Expenditures for specialized laboratory and scientific apparatus, instruments, or machinery for research purposes. (Includes microcomputers)
OFFICE/COMPUTER EQUIPMENT	Expenditures for equipment which will be used in the office or an administrative environment. (Includes microcomputers and word processors)
PHYSICAL PLANT MACHINES/TOOLS	Expenditures for maintenance and custodial equipment.
TRANSPORTATION/ FARM EQUIPMENT	Expenditures for motor vehicles and parts for vehicles which should be separately capitalized.

(1) Includes Endowment Income. Endowment Income is recorded in Designated Funds, which appear here under Statewide Programs and Services (SPS).
(2) For years prior to FY88, UAF Campus figures also include the combined activities of Cooperative Extension Service, CCREE Rural Education, and TVCC.
(3) Includes revenue of other MAUs accounted for in Designated Funds for which distribution information is not readily available ($2,237,180 for FY87, $3,281,506 for FY86, $3,415,230 for FY85; $2,013,943 for FY84; and $1,889,133 for FY 83).
(4) CCREE Administration was dissolved after the University reorganized in 1987.

Table Definitions

UNRESTRICTED E & G REVENUE	Represented here is the activity in the Unrestricted Current Funds accounts. These are funds which are to be expended in support of the primary objectives of the university. Education and General Revenue includes Current Funds revenue related to the categories displayed above.
DESIGNATED FUNDS	Current Funds (funds expendable for day-to-day operations) not under State control, identified for a specific purpose.

NOTE: Figures in parentheses are negative.

(1) For years prior to FY88, UAF Campus figures also include the combined activities of Cooperative Extension Service, CCREE Rural Education, and TVCC.

(2) FY84 Financial Statements included $603,743 of Library expenditures with Public Service. This amount is included here with Academic Support to make the data comparable for all years.

(3) Includes Designated Funds expenditures ($1,786,942 for FY87, $2,552,335 for FY86, $1,938,727 for FY85, $3,578,480 for FY84, and $5,721,133 for FY83) and the use of $3,799,754 of Working Capital in FY84 to fund accumulated prior years' deficits.

(4) CCREE Administration was dissolved after the University reorganized in 1987.

Table Definitions

UNRESTRICTED E & G EXPENDITURES	Represented here is the activity in the Unrestricted Current Funds accounts. These are funds which are to be expended in in support of the primary objectives of the university. Education and General Expenditures include Current Funds expenditures related to the categories displayed above.
DESIGNATED FUNDS	Current Funds (funds expendable for day-to-day operations) not under State control, identified for a specific purpose.

TABLE 5.2 FY83-88 Unrestricted Educational & General Expenditures (cont.)

Table Definitions

DIRECT PRIVATE GIFTS	Gifts made directly to the university by external entities. Does not include gifts and donations made to the University Foundation, alumni associations, booster clubs, or other support entities not directly controlled by the University.
CURRENT FUNDS	Funds expendable for the day-to-day operations of the university.
UNRESTRICTED FUNDS	Funds to be expended in support of the primary objectives of the university.
RESTRICTED FUNDS	Funds accepted by the university on the condition that they be used for a specific purpose. Once accepted, the university is legally bound to use the funds for the specified purpose or to refund them.

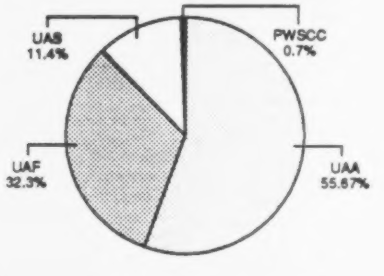
FY88 Unrestricted Tuition and Fees Revenues by Institution



FY84-88 Unrestricted Tuition and Fees Revenues

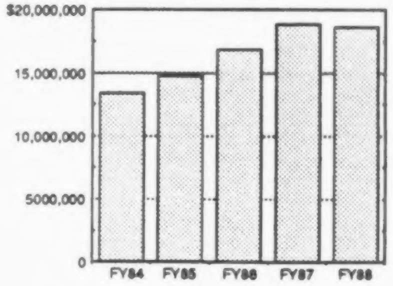


Table Definitions

FY88 ANNUALIZED TUITION, FEES	Annualized tuition is the total two semester tuition charge for a full-time student. Annualized fees are the total two semester fee charges a full-time students normally must pay.
CONSOLIDATED TUITION RATE	The flat rate tuition charged to students taking twelve or more undergraduate credits or nine or more graduate credits.

#1 RESIDENT STUDENT SOURCE. High school graduates per 1,000 population. This is the primary source of entering freshmen at public institutions in the state and is therefore the best single starting base for deriving total enrollments. The state's primary higher education responsibility is to provide post-secondary educational opportunities to its own resident high school graduates.

#2 ATTENDANCE EXPANSION RATIO. Annual full-time-equivalent enrollment in public institutions of higher education per high school graduate. This ratio measures the degree to which a state provides attractive and accessible opportunities for higher education to both in-state and out-of-state students relative to the size of its resident student source. High ratios indicate states heavily in the "business" of higher education compared to their basic responsibility to high school graduates.

#3 TAX CAPACITY. The potential of state and local governments to obtain revenues for public purposes through various kinds of taxes. Measured by a "representative tax system" that defines the tax capacity of a state and its local governments as the amount of revenue they could raise if all 50 state-local systems applied identical tax rates (national averages) to their respective tax bases.

#4 TAX EFFORT. State and local tax revenue collected as a percentage of state and local tax capacity. Tax effort measures, as a percentage, how much of the state and local government tax capacity is actually used. The tax revenue collected for all states equals total tax capacity nationwide, so that the national effort, by definition, is 100 percent. Effort measures for the individual states indicate how they compare with the national average.

#5 ALLOCATION TO PUBLIC HIGHER EDUCATION. State and local tax revenue appropriated or levied for current operating educational expenses of public institutions. This ratio suggests the relative importance and requirements of financing public student education to the funding of other public services in the state and local government budgets. The ratio for total appropriations is shown in ( ).

#6 TUITION FACTOR. Ratio of state and local government education appropriations plus student tuition revenue to state and local government education appropriations. This ratio sugests the relative importance of student tuition as a funding source compared to state-local appropriations. High ratios may reflect a large proportion of out-of-state students paying high non-resident tuition.

POTENTIAL TAX REVENUE PER STUDENT. These combined input factors establish a state's basic tax potential to finance public institutions relative to student enrollment load. Relatively stable tax potential to finance individual student's education without taking into account the types of institutions attended.

EDUCATION APPROPRIATIONS PER STUDENT. State and local tax revenue appropriated for current operating educational expenses of public institutions per annual FTE student. Indicates average state support to individual students without taking into account the types of institutions attended. Education approp's related to the state system's funding requirements are reported as an index (APP/SSI). Appropriations for research, agriculture, and medical are reported as a percent of total appropriations to suggest relative importance, and per capita as a need measure.

COLLECTIVE FINANCIAL ACTIONS. The combined actions are the factors that establish the degree to which the potential tax revenues per student are actually utilized to achieve the support level provided. States with a very high percentage are making a substantial combined tax effort, allocation to education, and tuition charge to finance public institutions.

TABLE 6.3 FY88 Administrative Salary Data by Institution Type

TABLE EXPLANATION: The purpose of CUPA's annual ADMINISTRATIVE COMPENSATION SURVEY is to provide the most current salary data available for college and university administrators. The 1987-88 survey is the eleventh year CUPA has conducted this survey on an annual basis. This year's survey focused on reporting data on 100 first-line (primary) positions and 65 second-line (secondary) positions. Selection of surveyed positions was based on an analysis of those positions common to most higher education institutions. In all tables, salaries are those in effect during the Fall of 1987. Salaries are at an annualized, full-time rate; they reflect only actual cash flow earnings, excluding any services contributed without charge. It should be noted that the following salary data are not adjusted for State of Alaska or regional cost-of-living differentials.

SUMMARY OF RESPONDENTS

INSTITUTIONAL CLASSIFICATION	FUNDING SUPPORT Public	Private	TOTAL
Universities	294	151	445
Four-Year Colleges	108	430	538
Two-Year Colleges	383	44	427
Other	64	90	154
TOTAL	849	715	1,564

SUMMARY OF PRIMARY POSITION SALARY INCREASES BY INSTITUTION CLASSIFICATION

INSTITUTIONAL CLASSIFICATION	1985-86 Increase (Decrease)	1986-87 Increase (Decrease)	1987-88 Increase (Decrease)
Universities	6.6 %	4.7 %	3.1 %
Four-Year Colleges	5.6 %	5.6 %	2.7 %
Two-Year Colleges	5.8 %	4.0 %	4.0 %
Other	4.3 %	6.6 %	3.6 %

SUMMARY OF PRIMARY POSITION SALARY INCREASES BY JOB FAMILY

JOB FAMILY	1985-86 Increase (Decrease)	1986-87 Increase (Decrease)	1987-88 Increase (Decrease)
Academic Affairs	6.0 %	3.7 %	7.2 %
Administrative Affairs	5.7 %	5.7 %	5.0 %
External Affairs	4.7 %	6.6 %	2.5 %
Student Affairs	5.2 %	3.8 %	2.2 %
Executive Affairs	7.7 %	5.6 %	5.0 %

Washington, D.C.: CUPA, 1988

Table Definitions

MEDIAN	The middle value in an array of all salaries for the position; half of the salaries are lower than the median and half are higher. The median is considered a more reliable measure than the mean/average because it minimizes the effect of extremely high and low salaries.
1st QUARTILE	Divides salaries below the median into two 25 percent segments.
3rd QUARTILE	Divides salaries above the median into two 25 percent segments. The 1st and 3rd quartiles, therefore, mark the interquartile range; half of all salaries - - the middle 50 percent - - fall within this range.

TABLE 6.3 FY88 Administrative Salary Data by Institution Type (cont.)

PUBLIC UNIVERSITIES WITH FTE ENROLLMENTS OF 5,001-10,000 (UAA Anchorage Campus)

TITLE - PRIMARY POSITIONS	MEDIAN	1st Quartile	3rd Quartile

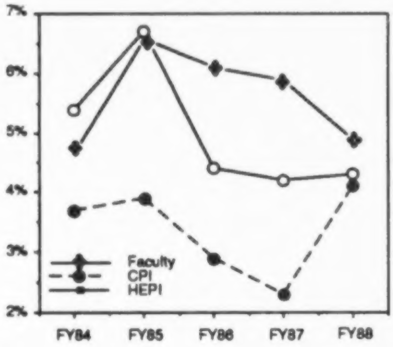
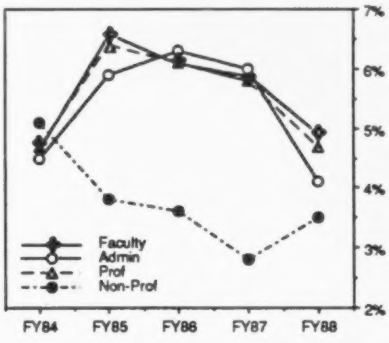
Five Year HEPI, CPI, and Faculty Year-to-Year Salary Changes





Five Year Faculty, Administration, Professional, & Non-Professional Year-to-Year Salary Changes

Table Definitions

HIGHER EDUCATION PRICE INDEX (HEPI)	A measure of the average changes in prices of goods and services purchased by colleges and universities through current fund educational and general expenditures.
PRICE INDEX	A price index series measures the effects of price change on a fixed group of items from some base year. The change in price index values from year to year may be interpreted as the change in dollars required to offset the effects of inflation in buying the same kind of goods and services previously purchased. The indexes here measure price changes from a designated reference date, or base year (here being FY83) which was given the index value of 100.0. An index value of 115.0 represents a 15% increase over the base year values.
RESEARCH & DEVELOPMENT PRICE INDEX	A measure of the average changes in prices of goods and services purchased by universities through current direct expenditures for sponsored research. Overhead charges apportioned to research are excluded from the index.

NOTE: This section contains short summaries of research efforts during the 1988 Fiscal Year in which results are highlighted. More detailed information on what is summarized on the succeeding pages is available from the University's Statewide Office of Institutional Research. Inquiries are welcomed.

TABLE 7.1 Enrollment Projections and Environmental Scan: 1988-98

Project Description The restructuring of the University of Alaska from a system eleven community colleges and three four-year institutions to three multi-campus institutions and one community college plus the fact that the state was passing through the most difficult economic decline period since statehood, required that a new systemwide enrollment projection be constructed which addessed these changes. The specific problem of the study was to develop time-series/causal model for end-of-semester fall credit hour and headcount projections at the campus, institution, and system levels to better predict University of Alaska facilities construction needs. In addition to facilities construction, the derivation of long-range headcount and credit hour projections should be integral to any statewide highed education master planning, academic program planning, institution accreditation review, the budget process, and estimating tuition revenues.

Methodology Due to the current restructuring of the UA system, it was necessary that Statewide Institutional Research first convert historical headcount and credit hour data from the old five MAU structure to the new three MAU structutre. A University of Alaska system-level headcount and credit hour projection was developed by Statewide Institutional Research based on the historical UA higher education participation rate. The Alaska Department of Labor's (DOL) 1987 population estimate by age cohort within school district along with ISER's base case population projection by Alaska National Guard battalion area were used. Each institution reviewed the overall headcount and credit hour ceilings for the UA system and their multi-campus institution. Additionally, institutions were provided support data that detailed five-year historical headcount by campus and level; and credit hour data by campus, level, and course subject reworked to reflect the new organization structure of the University where headcount duplicity between ACC/UAA and TVCC/UAF was eliminated. Adjustments were incorporated based on the justifications made by the institution. Within the total institution ceiling developed by Statewide Institutional Research, institutions were asked to developed campus-level headcount and credit hour projections and, if new facilities were being requested in the capital budget, to extend these projections to course level and course subject for each campus for use in the Statewide Facilities Planning and Construction space needs model.

TABLE 7.1 Enrollment Projections and Environmental Scan: 1988-98 (cont.)

Results The system-level projections that resulted have 1988 closing fall semester headcount decreasing for a third straight year but the 0.2% decrease is the smallest decrease over the period. It represents a leveling off from the dramatic decline that occurred between the 1985 and 1986 fall semesters when headcount dropped by 6.2%. Starting in fall 1989, the headcount projection has enrollment increasing at approximately 2% per year. This pattern is repeated for the number of projected credit hours from 1988 through 1998. The trend of the average number of credit hours a typical student enrolls in, is expected to decrease slightly over the planning horizon from 6.98 credits per headcount student to 6.89 systemwide. However, the participation rate of the population 18 years old and older is expected to increase from 8.5% to 8.7%. It is expected that the proportion of total UA system headcount will increase for UAA, rising from 52.9% in 1983 to 55.2% by 1998. The proportion of the total UA system headcount attending UAF is expected to decline by 1.7% and by 0.6% for UAS. It is expected that at all institutions the absolute number of headcount students will continue to grow. TABLE 7.2 Cross-Industry Non-Exempt/Classified Wage Survey

Project Description	Alaskan employers need current non-exempt/classified employee salary information broken out by wage structure, location, and industry type. In the past, adequate wage data for decision making may not have been routinely collected from and made readily available to employers. Since non-exempt/classified jobs are filled primarily from the local work force pool, the need for employers to be knowledgeable about the local salary market and specific job requirements is high. Hence, a need exists for periodically surveying industries in the State to increase both the availability and usefulness of comparative non-exempt/classified employee wage data in Alaska. A resource, not only that coordinates the collection of comparative salary data, but that increases the timeliness and accessibility of the data has been suggested by numerous Alaskan employers. As a pilot effort to respond to this need, the Non-Exempt/Classified Employee Cross-Industry Alaska Wage Survey report was developed from statewide survey data, collected by Strategic Services, the University's Office of Human Resources, and Hay Management Consultants, and analyzed by the University's Statewide Office of Institutional Research.
Methodology	Nineteen non-exempt/classified jobs were defined as benchmark jobs for the study. Of these, fifteen were cross-industry jobs; jobs that existed in more than half of the organizations surveyed. The following fifteen benchmark jobs were included in this cross-industry job analysis: Mail Clerk, Clerk Typist, Secretary I, Secretary II, Accounting Clerk, Library Assistant, Data Entry Operator, Lead Computer Operator, Warehouse Worker, Custodian I, Custodian II, Plumber, Electrician, Carpenter, and Maintenance Mechanic. A survey packet was constructed based on formats used by Hay and Associates in their surveys from across the United States. The packet included job descriptions for each of the benchmark job descriptions, a data collection instrument, and instructions for uniform completion of the data collection instrument. Twenty-four organizations were identified and contacted to participate in the survey. Organizations compared their existing job descriptions with benchmark job descriptions to determine which of their jobs matched each benchmark. Once an organization's positions had been matched to the benchmark positions, hourly wage rates actually paid to incumbents in each benchmark job were aggregated to indicate the lowest actual wage paid, the highest wage paid, and the arithmetic mean wage for the group. Hourly rates were to include any geographic differentials used but were to exclude any adjustments due to shift differentials, overtime, or premiums. In a similar fashion, the wage structure for the composite of all positions aggregated into each benchmark job was requested to derive a structure hourly base wage minimum, midpoint, and maximum. Responses for each benchmark job were compiled by organization. In addition, both actual payroll wage data and wage structure data were aggregated by industry type and location.

TABLE 7.3 UA Six-Year Plan: An Assessment of Progress After 2 Yrs

Project Description

The Six-Year Plan is mainly strategic in nature, highlighting areas of proposed emphasis rather than detailing every aspect of the University System. The vision of the desired shape, substance, and direction of the System provided a basis for the formulation of the Goals, Objectives and Actions of the Six-Year Plan in 1986. Written and approved just prior to the decision to restructure the University System, the plan was in need of revision to reflect a new University System structure that in many respects has still not stabilized. Compounding the difficulty of assessing how far the University has come in relation to the Actions of the plan was the fact that there had been significant turnover in executive administration positions at the University since 1986. A large number individuals who were knowledgeable about many of the activities of the University and who were in management positions in 1986 were no longer here to make evaluations of Action progress over the last two years. As an example, of the fifteen members of the 1985-86 Six-Year Plan Committee that drafted the original plan, only six remained employed at the University. Of these six, four held significantly different positions than they held two years ago or they were employed at different institutions within the University System. In spite of the above mentioned caveats, this report, on assessing the progress made on specific Action elements of the Six-Year Plan, focused on determining how well the University System did in attaining portions of the plan during the first two years after its 1986 inception and adoption by the Board of Regents. It was intended that the report function as a primary resource document for the President's Six-Year Plan Revision Committee as it began work on updating the plan.

TABLE 7.3 UA Six-Year Plan: An Assessment of Progress After the First Two Years (cont.)

Methodology

The first step involved designing a survey that had to contain all of the Six-Year Plan's 116 Actions, 31 Objectives, and 10 Goals. The survey population was limited to University Board of Regents, Statewide and campus executive administrators, and campus faculty administrators. The Statewide executive administrators group was comprised of the President, Vice Presidents, and Statewide Planning Team members. The campus executive administrators group was comprised of the Chancellors, Vice Chancellors, and rural college campus directors. The campus faculty administrators group was comprised of deans and academic department chairs. Student leaders and Statewide Assembly executive officers also received surveys. The interval between survey mailout and mailback was used by the Task Force to work on developing additional background information to help support the survey Action ratings on progress made over the last two years. FY89 budget increment appropriations and FY90 budget increment requests were integrated with all appropriate plan Actions as "progress supporting factors." Additionally, support data from the Statewide Assembly 1988 report Enterprise and Excellence , the Statewide Office of Institutional Research 1987 and 1988 Statistical Abstract reports, and annual reports from University of Alaska centers, research institutes, and other administrative offices were reviewed for applicability in supporting Action progress evaluation.

The analysis of the survey responses was largely confined to the calculation of rating score arithmetic means, modes, and standard deviations in order to rank Actions by: 1) those the University has made the most progress on as indicated by a small arithmetic mean; 2) those the University has made the least progress on as indicated by a high arithmetic mean; 3) those that have been cited most frequently as being achieved; 4) those that have been cited most frequently as being no longer relevant to the University's mission; 5) those having either the largest or smallest standard deviation, or in other words, where the largest or smallest spread of response ratings existed; and 6) those having either the largest or smallest response rate. The ranking of Actions in this manner, highlighted the Actions that had one or more exceptional survey raw score statistic. The Task Force maintained the ability to differentiate among different survey response groups in order to determine if any statistically significant response bias existed among these groups. Although survey sample strata were developed by organization as well as by type of respondent, the analysis focused on differences in response patterns between a BOR/Administrator group containing n1 = 31 respondents, and a Faculty Administrator group containing n2 = 33 respondents. The following t-test formula was used to determine if a significant difference existed between the Action arithmetic means of each group:

$$t = \frac{\bar{x}_1 - \bar{x}_2}{\sqrt{\frac{(n_1 - 1)s_1^2 + (n_2 - 1)s_2^2}{n_1 + n_2 - 2} \cdot \left(\frac{1}{n_1} + \frac{1}{n_2}\right)}}$$

where:

$\bar{x}1,2$ is the arithmetic mean of group 1 or group 2

$\bar{s}1,2$ is the standard deviation of group 1 or group 2

n1,2 is the group 1 or group 2 sample size.

Similarly, the t-test was used to investigate the response consistency between an Objective's Action composite rating and its arithmetic mean score calculated from survey rating scores.

Results

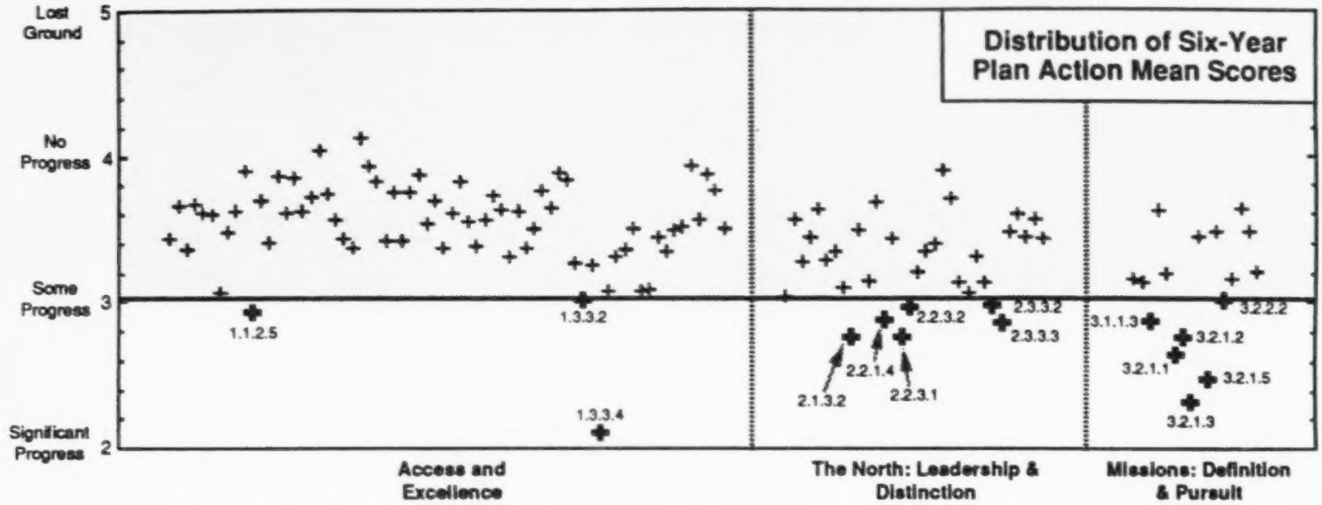
Seven figures summarized survey results relating to the following key questions:

1. Of the 116 Six-Year Plan Actions, which ones did survey respondents rate as having made the most progress from 1986 to 1988?
2. Of the 116 Six-Year Plan Actions, which ones did survey respondents rate as having made the least progress from 1986 to 1988?
3. Of the 116 Six-Year Plan Actions, which ones did survey respondents cite most frequently as being achieved?
4. Of the 116 Six-Year Plan Actions, which ones did survey respondents cite most frequently as no longer relevant to the University's mission?
5. Of the 116 Six-Year Plan Actions, which ones did survey respondents respond in their progress rating most uniformly to and which ones were rated the least so?
6. Of the 116 Six-Year Plan Actions, which ones did survey respondents complete a non-blank rating response for the most often, and which ones received the most blank responses?
7. Of the 116 Six-Year Plan Actions, which ones did the BOR/Administrator respondent subgroup rate significantly different from the ratings given by the Faculty Administrator respondent subgroup?

It was intended that these figures suffice as an executive summary of the survey results. A more complete statistical picture of individual Action rating and support factor characteristics was included in the last section of the report. Examples of the summary figures and the detailed individual Action rating analyses follow. SOURCE: University of Alaska System Six-Year Plan: An Assessment of Progress After the First Two Years, UA SW Institutional Research, 1988.

TABLE 7.3 UA Six-Year Plan: An Assessment of Progress After the First Two Years (cont.)

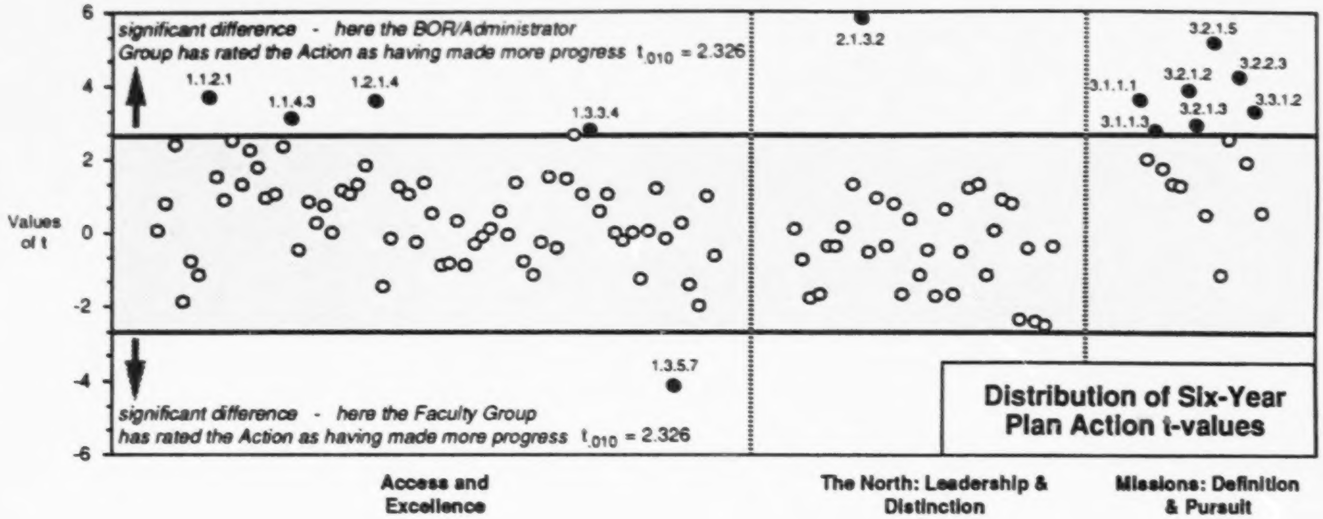
THE FIFTEEN SIX-YEAR PLAN ACTIONS MAKING THE MOST PROGRESS



The Fifteen Six-Year Plan Actions Making the Most Progress Since 1986

Action Reference No.		Arithmetic Mean Score
1.3.3.4	Establish programs by which students may acquire computer equipment at reduced costs.	2.11
3.2.13	Deliver all academic credit-bearing instruction through accredited units.	2.32
3.2.1.5	Include life-long learning in the mission statements of all UA System educational institutions.	2.48
3.2.1.1	Periodically review and revise individual campus mission statements as required to meet the changing needs of Alaska.	2.65
2.1.3.2	Seek establishment of a quick-start fund in the Governor's Office to enable rapid initiation of high-need programs.	2.76
3.2.1.2	Examine alternative organizational structures, and adopt that which best meets the needs of the people of Alaska and the missions of the UA System for the next decade.	2.76
2.2.3.1	Electronically link UA System libraries, data bases, and research centers and institutes to provide access to data and information.	2.77
2.3.3.3	Establish more cooperative agreements with North Pacific and circumpolar institutions to further academic and research collaboration, and faculty and student exchanges.	2.86
3.1.1.3	Annually identify legislative priorities and formulate a legislative agenda.	2.87
2.2.1.4	Plan for the funding and acquisition of supercomputer services for scientific research, including funding as "seed money" for grants and/or participation in consortia.	2.88
1.1.2.5	Provide increased mainframe and microcomputer capabilities to all UA System institutions to meet students' instructional needs.	2.93
2.2.3.2	Cooperate with the Arctic Research Commission and other entities in sponsoring international symposia.	2.97
2.3.3.2	Provide increased information services to Alaskan businesses and governmental agencies regarding North Pacific and circumpolar region markets, finances, trading barriers, and the legal, cultural and language factors affecting trade.	2.98
1.3.3.2	Improve use of technology in systemwide operations to increase productive use of facilities, equipment and staff through on-line registration, facility scheduling, and data collection and analysis.	3.02
3.2.2.2	Define the roles of the UA System institutions and their relationship to each other and to the UA System statewide administration.	3.02

ACTION RATING DIFFERENCES - BOR/ADMINISTRATOR AND FACULTY GROUPS



Distribution of Six-Year Plan Action t-values

Six-Year Plan Actions That Received Significantly Different Ratings by BOR/Administrator and Faculty Groups

Action Reference No.		t Value
2.1.3.2	Seek establishment of a quick-start fund in the Governor's Office to enable rapid initiation of high-need programs.	5.846
3.2.1.5	Include life-long learning in the mission statements of all UA System educational institutions.	5.230
3.2.2.3	Communicate the roles, missions, programs and activities of each institution throughout the System.	4.318
3.2.1.2	Examine alternative organizational structures, and adopt that which best meets the needs of the people of Alaska and the missions of the UA System for the next decade.	3.987
1.1.2.1	Review and modify institutional mission statements to specify which professional programs will be pursued in which institutions.	3.833
3.1.1.1	Actively broaden and strengthen linkages between State officials and UA System regents and officers.	3.775
1.2.1.4	Establish policies, classifications and procedures for non-tenure track faculty, including term, research, visiting, affiliate and adjunct appointments.	3.744
3.3.1.2	Seek increased scholarship support from local and regional organizations and businesses.	3.475
1.3.5.7	Establish a review process to assure sex and racial equity in admissions and curriculum.	-3.439
1.1.4.3	Emphasize the education of Alaskans to become teachers in Alaska's schools.	3.331
3.2.1.3	Deliver all academic credit-bearing instruction through accredited units.	3.099
1.3.3.4	Establish programs by which students may acquire computer equipment at reduced costs.	3.028
3.1.1.3	Annually identify legislative priorities and formulate a legislative agenda.	3.000

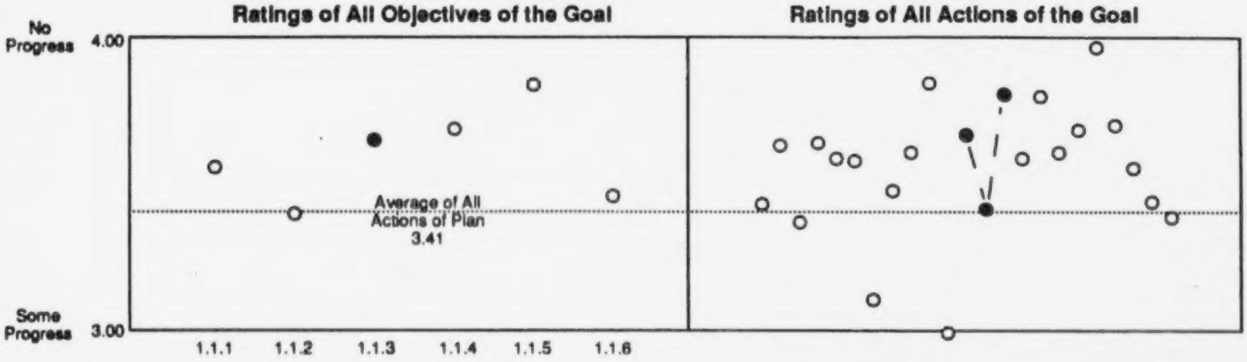
TABLE 7.3 UA Six-Year Plan: An Assessment of Progress After the First Two Years (cont.)

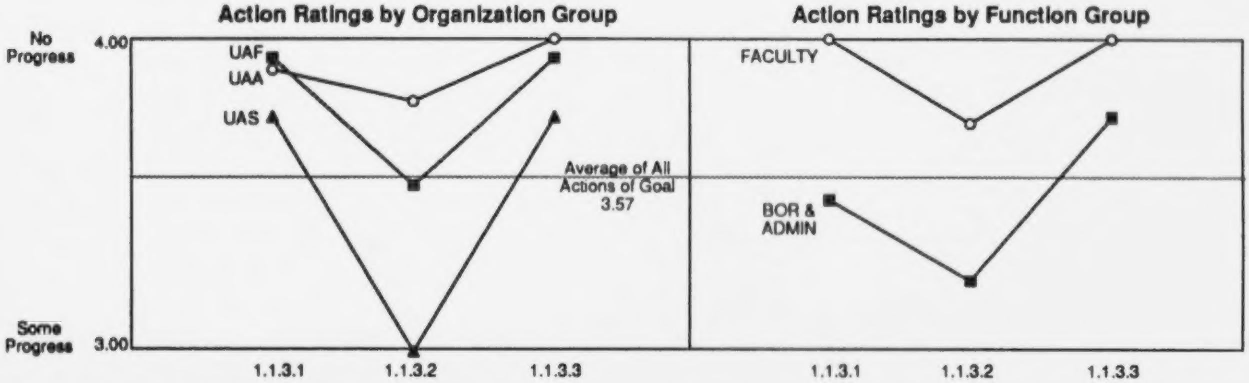
EXAMPLE OF REPORT DETAILED ACTION ANALYSES

1.1 GOAL Achieve institutional and program excellence and diversity within the UA System.

1.1.3 OBJECTIVE Strengthen the effectiveness, responsiveness and integration of vocational and technical education.

1.1.3.1 ACTION Improve review criteria for determining the continuation of vocational programs, for instituting new ones, and for discontinuing others.
1.1.3.2 ACTION Seek support from the private sector in promoting vocational technical education, including business and industry partnerships.
1.1.3.3 ACTION Establish carefully defined agreements which articulate vocational education offerings between UA institutions and high schools, vocational/technical schools, and business and industry .





Statistics and Supporting Factors

	ACTIONS									ALL ACTIONS OF THE		
	1.1.3.1	1.1.3.2	1.1.3.3							Objective	Goal	6-yr Plan
Arithmetic Mean	3.70	3.41	3.86							3.65	3.57	3.41
Mode	4	3	4							4	4	3
Standard Deviation	0.77	0.90	0.68							0.81	0.76	0.83
Response Rate (%)	74%	74%	72%							73%	77%	74%
Rank Within Objective	2	1	3									
Rank Within Goal (1-23)	17	5	21									

Supporting Factors

1.1.3.1	FY89 Approp - SPS Voc Ed Quick-Start $200.0 / SW vo-tech coordinating office just established / UAS improved but UAA and UAF no progress or negative progress / SW vo-tech and institutional research offices need to do annual report / Will see more as SW vo-tech comes online / Confusion exists due to restructuring / Must link program offerings with manpower needs of state / FY86-87 vo-tech degrees awarded increased by 17% (see Stat Abstract)
1.1.3.2	FY90 Request - UAS Small Business Incubator $40.1 / FY89 Approp - UAF Mineral Engr Tech Assist / FY89 Approp - UAA Enterprise Chair $30.0 / FY89 Approp - SPS Voc Ed Quick-Start $200.0 / Kenai is doing good / UAA's MAPTS does this / UAS-Green's Creek Mine program / Restructuring has caused the need to reforge business and industry support / May happen in FY90 but is too soon to determine yet / Fine goal but difficult to accomplish because of small private sector in Alaska / Northwest College relationship with mining industry.
1.1.3.3	FY90 Request - SW Vo-Tech Prog Admin $215.0, MAPTS SE Mining $150.0, UAA Faculty and Labor Pool $539.0, MSC Faculty $47.4, IC Health Science $50.0, KEC Nursing $29.8, MAPTS Labor Pool $26.0, UAA Equip Replace $107.6, KPC Electronics Faculty $21.0, UAS Small Business Incubator $40.1 / FY89 Approp - SPS Voc Ed Quick-Start $200.0 / Stagnant / May happen in FY90 but is too soon to determine yet / Move this up in priority list / Important but ground was lost in 1987-88 / UAA - Anchorage School District agreement / UAF NWC - Nome Public Schools - mining industry work / Fall '86 to Fall '87 UA System vocational-technical credit course class sections decreased from 1,601 to 1,153 - or by -28% (see Stat Abstract).

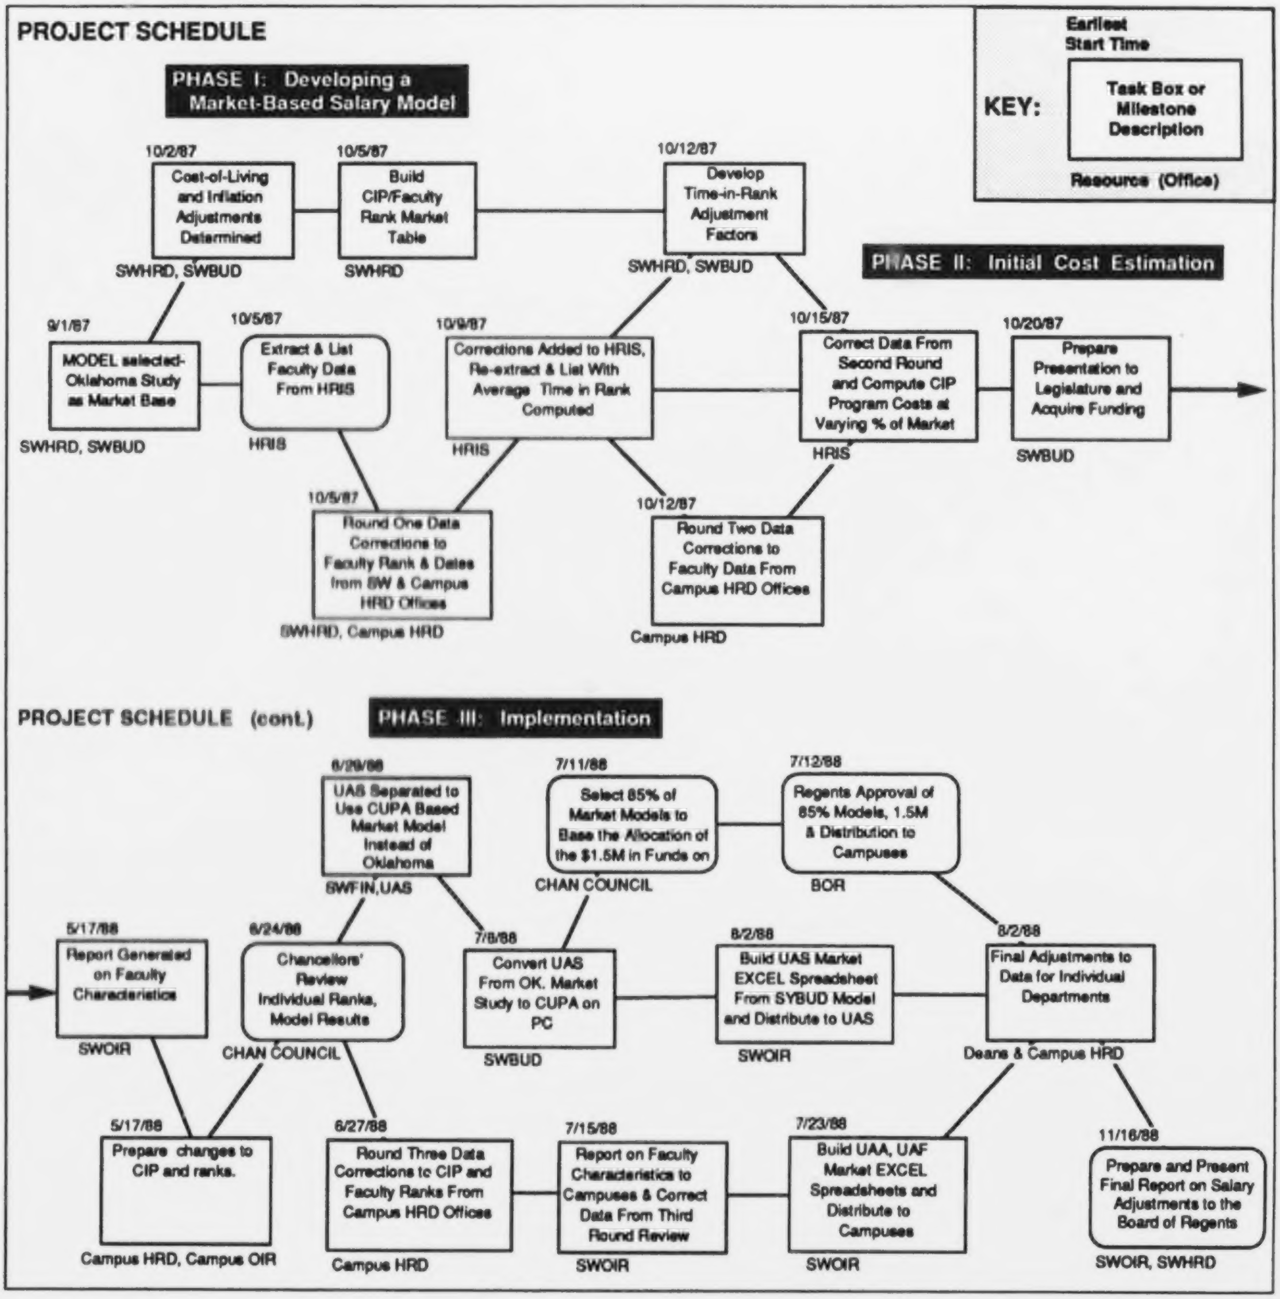
TABLE 7.4 FY89 Market-Based Faculty Salary Model

Project Description

Over a period of four years beginning in 1984, the University of Alaska had experienced significant erosion of its competitive position in the compensation of faculty. The challenge faced by the University was to compete for the highest quality faculty in the national and international marketplace while retaining the outstanding individuals who were currently in the University's employ. During this four year period recruitment and retention had become increasingly difficult. Faculty salaries were advancing nationally by an average of six percent per year during a period when no salary adjustments were available to University of Alaska employees.

The University administration responded to this challenge by designing and conducting a comprehensive market salary analysis which produced alarming results. The study demonstrated that by the end of FY88 over 59% of the University of Alaska faculty would be below the Alaska adjusted national market salary average for their respective discipline and rank.

Based on the results of the study the administration determined the funding necessary to return faculty salaries to the Alaska national market salary average, the Board of Regents presented this need as their top priority in the University budget request for FY89, and in Fall 1988 distributed $1.5 million to UA faculty to bring them within 85% of model salaries.



PROJECT SCHEDULE
KEY:
Earliest Start Time
Task Box or Milestone Description
Resource (Office)
PHASE I: Developing a Market-Based Salary Model
10/2/87
Cost-of-Living and Inflation Adjustments Determined
SWHRD, SWBUD
10/5/87
Build CIP/Faculty Rank Market Table
SWHRD
10/12/87
Develop Time-in-Rank Adjustment Factors
SWHRD, SWBUD
PHASE II: Initial Cost Estimation
9/1/87
MODEL selected-Oklahoma Study as Market Base
SWHRD, SWBUD
10/5/87
Extract & List Faculty Data From HRIS
HRIS
10/9/87
Corrections Added to HRIS, Re-extract & List With Average Time in Rank Computed
HRIS
10/15/87
Correct Data From Second Round and Compute CIP Program Costs at Varying % of Market
HRIS
10/20/87
Prepare Presentation to Legislature and Acquire Funding
SWBUD
10/5/87
Round One Data Corrections to Faculty Rank & Dates from SW & Campus HRD Offices
SWHRD, Campus HRD
10/12/87
Round Two Data Corrections to Faculty Data From Campus HRD Offices
Campus HRD
PROJECT SCHEDULE (cont.)
PHASE III: Implementation
6/29/88
UAS Separated to Use CUPA Based Market Model Instead of Oklahoma
SWFIN,UAS
7/11/88
Select 85% of Market Models to Base the Allocation of the $1.5M in Funds on
CHAN COUNCIL
7/12/88
Regents Approval of 85% Models, 1.5M & Distribution to Campuses
BOR
5/17/88
Report Generated on Faculty Characteristics
SWOIR
6/24/88
Chancellors' Review Individual Ranks, Model Results
CHAN COUNCIL
7/8/88
Convert UAS From OK. Market Study to CUPA on PC
SWBUD
8/2/88
Build UAS Market EXCEL Spreadsheet From SYBUD Model and Distribute to UAS
SWOIR
8/2/88
Final Adjustments to Data for Individual Departments
Deans & Campus HRD
5/17/88
Prepare changes to CIP and ranks.
Campus HRD, Campus OIR
6/27/88
Round Three Data Corrections to CIP and Faculty Ranks From Campus HRD Offices
Campus HRD
7/15/88
Report on Faculty Characteristics to Campuses & Correct Data From Third Round Review
SWOIR
7/23/88
Build UAA, UAF Market EXCEL Spreadsheets and Distribute to Campuses
SWOIR
11/16/88
Prepare and Present Final Report on Salary Adjustments to the Board of Regents
SWOIR, SWHRD

TABLE 7.4 FY89 Market-Based Faculty Salary Model (cont.)

Methodology The University administration selected two national faculty salary surveys to be utilized in the study; the Oklahoma State University Faculty Salary Survey by Discipline and the National Faculty Salary Survey by Discipline and Rank published by the College and University Personnel Association and the American Association of State Colleges and Universities. The salaries presented in these two surveys were adjusted to Alaska by addition of the following differentials: U.S. average to Seattle 8.6%, Seattle to Anchorage 13.0%. The data contained in the national salary surveys were collected in 1987 and were adjusted to reflect salary inflation during FY88 and FY89. The survey salaries were adjusted by 4.6% using data presented in the Higher Education Price Index and by the American Compensation Association. Each faculty position in the University was assigned a Classification of Instructional Program (CIP) code which allowed direct comparison by discipline with the salaries presented in the national surveys. The average time in rank was then computed for each academic rank and a two percent per year longevity factor was applied to each salary. Faculty members with greater than the average time in rank for their respective rank received a two percent longevity credit for each year greater than the average and those with less than the average time in rank received a corresponding reduction. The maximum positive or negative adjustment for longevity was limited to ten percent for the ranks of Instructor, Assistant Professor and Associate Professor. The maximum adjustment for the rank of Professor was limited to fourteen percent.

STEP 1: FULL MARKET MODEL SALARY

Calculation to adjust each National Survey Market-Based Salary to the current fall 1988 inflation factor and to the Anchorage cost of living

For 9-month UA faculty

$$\left(\begin{matrix}\text{\% of}\\\text{contract}\end{matrix}\right)\left(\underset{Ⓐ}{1.046}\cdot\underset{Ⓑ}{1.086}\cdot\underset{Ⓒ}{1.130}\right)\left(\begin{matrix}\text{Oklahoma or}\\\text{CUPA-AASCU}\\\text{mean salary}\end{matrix}\right)$$

For 12-month UA faculty

$$\left(\begin{matrix}\text{\% of}\\\text{contract}\end{matrix}\right)\left(\underset{Ⓐ}{1.046}\cdot\underset{Ⓑ}{1.086}\cdot\underset{Ⓒ}{1.130}\right)\left(\begin{matrix}\text{Oklahoma or}\\\text{CUPA-AASCU}\\\text{mean salary}\end{matrix}\right)\underset{Ⓓ}{\left(\frac{26.1}{19.5}\right)}$$

where:

Ⓐ is the *inflation factor* necessary to move the 1987 national average 9-month Oklahoma/CUPA-AASCU faculty salary data to the current 1988 level

Ⓑ is the *Seattle cost of living factor* to move the 1988 national average 9-month Oklahoma/CUPA-AASCU faculty salary data to Seattle

Ⓒ is the *Anchorage cost of living factor* to move the 1988 Seattle adjusted 9-month Oklahoma/CUPA-AASCU faculty salary data to Anchorage

Ⓓ is the *12-month conversion factor* to move the 1988 Anchorage adjusted 9-month Oklahoma/CUPA-AASCU faculty salary data to12-month equivalent salaries

STEP 2: FULL MARKET + LONGEVITY MODEL SALARY

Calculation to Adjust the Full Market Model Salary to account for time in rank at UA

For Instructor / Assistant Professor / Associate Professor level UA faculty

$$\left(\begin{matrix}\text{full}\\\text{market}\\\text{model}\\\text{salary}\end{matrix}\right)\underset{Ⓔ}{\left[1.02\left[(\text{yrs in rank})-(\text{UA avg yrs in rank})\right]\right]}$$

For Professor level UA faculty

$$\left(\begin{matrix}\text{full}\\\text{market}\\\text{model}\\\text{salary}\end{matrix}\right)\underset{Ⓕ}{\left[1.02\left[(\text{yrs in rank})-(\text{UA avg yrs in rank})\right]\right]}$$

where:

Ⓔ is the *Instructor/Assistant Professor/Associate Professor longevity factor* which increases or decreases faculty market salaries based on time in rank. This factor is limited to +/- 10% (or 1.10 to 0.90 as the multiplying factor).

Ⓕ is the *Professor longevity factor* which increases or decreases faculty market salaries based on time in rank. This factor is limited to +/- 14% (or 1.14 to 0.86 as the multiplying factor).

Definitions

% OF CONTRACT	The percentage of a UA faculty member's contract that is applicable to the CIP discipline Oklahoma/CUPA-AASCU market-based faculty salary.
YRS IN RANK	For a UA faculty member, the number of years holding their current rank as of April 15, 1988.
UA AVG YRS IN RANK	For all UA faculty members in the study, this is the average time in rank by rank. For Professors, this was 7.64 years, Associate Professors 5.42 years, Assistant Professors 4.41 years, and Instructors 2.51 years.
26.1/19.5	UA employee payrolls are bi-weekly. Nine-month faculty, have 19.5 pay periods, twelve-month faculty have 26 pay periods.

TABLE 7.4 FY89 Market-Based Faculty Salary Model (cont.)

Results

- Of the 1,022 faculty in the study, 349 or 34% received market adjustments averaging $4,376. All disciplines met or exceeded the 85% of market goal but Law, which attained a market level 84%.
- At UAA, 124 or 32% of the faculty received market adjustments averaging $4,363. All disciplines met or exceeded the 85% of market goal but Law, which attained a market level 84%.
- At UAF, 207 or 37% of the faculty received market adjustments averaging $4,521. All disciplines met or exceeded the 85% of market goal but Health Sciences which attained a market level of 78%, and Public Affairs which attained a market level of 82%.
- At UAS, 18 or 21% of the faculty received market adjustments averaging $2,806. All disciplines met or exceeded the 85% of market goal. SOURCE: FY89 Market-Based Faulty Salary Model: Implementation Results, UA SW Institutional Research, 1988.
